

Language Workshops at ICFP'08

The Scheme, Haskell, and ML workshops - although I read that the Haskell workshop is now the Haskell symposium - will all be held with ICFP (the International Conference on Functional Programming) in Vancouver, BC, in late September. Here are the relevant web pages:

- [2008 Workshop on Scheme and Functional Programming](#)
- [ACM SIGPLAN 2008 Haskell Symposium](#)
- [2008 ACM SIGPLAN Workshop on ML](#)

Submission deadlines for all of these are in late June.
